

DANCE CANVAS

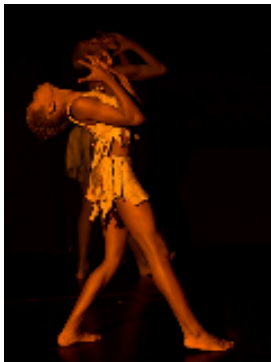

The Premier Ground for New Choreography

CREATING THE CANVAS: *Become a Supporting Partner*

DANCE CANVAS - Dance Canvas' mission is to provide emerging professional choreographers with a space to create and present innovative new works. Choreographers submit works to be presented in our performance series in Atlanta. Ten talented and diverse choreographers are selected annually. Our performances provide a much needed career resource that is otherwise unavailable. Choreographers have access to a database of professional dancers, free studio rehearsal space, promotion, professional lighting in a professional theater.

DC INTERNS - DC INTERNS, serves as a springboard for students to learn, develop, and polish their skills in the business, production, and creative aspects of the dance profession. Dance Canvas invites high school and college students to participate in the DC INTERN program. For the 2008 Inaugural Performance Series, we partnered with *Usher's New Look Foundation* to provide internship opportunities for several teens in production management.

DC NEXT - A core concept of Dance Canvas' vision is to artistically enrich the community by providing educational opportunities to youth. Our programs create new artists and arts patrons. Atlanta area teens spend a series of weeks in creative workshops and working with mentors in the dance community. DC NEXT was first presented as the curriculum for the *New Look Foundation* in the summer of 2007 and was awarded a repeat contracts currently through 2009, based on the merit and success of the program.
